NIMANTHA NADEERAKA

Full Stack Software Engineer

📞 0702287372   @ info.nadeeraka@gmail.com   🔗 https://nadeeraka.netlify.app/

📍 Bulathsinhala, 12300

SUMMARY

Full-stack developer with 4+ years of JavaScript expertise, specializing in building scalable MERN stack web applications. Increased user engagement by 5% and slashed page load times by 30% through core component optimization. Led the implementation of a reusable JavaScript module library, boosting team productivity and code maintainability. Proficient in Node.js backend development, crafting efficient APIs for high-traffic applications. Passionate about clean code, collaboration, and delivering outstanding user experiences.

PROFESSIONAL EXPERIENCE

Full-stack Software Engineer

Stack Technologies

📅 06/2021 - Present   📍 (Remote)

- Project: DSI Scheduler (supply and production planning)
  Summary: Designed and developed reusable React.js components, managed state and lifecycle, and developed server-side application logic using NodeJs and Python. Successfully optimized database performance and integrated APIs.
  Key Skills: React.js, JavaScript, Redux, Frontend development, NodeJs and Python, Server-side Development, PostgreSQL, API Development, Troubleshooting, Collaboration
- Project: Tripmo Taxi project
  Utilized the MERN stack for development, with a primary focus on Express.js for server-side application logic.
  Designed and developed reusable React.js components, managing state and lifecycle.
  Optimized database performance and integrated APIs to enhance overall application efficiency.
  Key Skills: React.js, JavaScript, Redux, Frontend Development, Node.js, Express.js, Server-side Development, MongoDB, PostgreSQL, API Development, Troubleshooting, Collaboration

Associate Full-stack software engineer

Stack Technologies

📅 07/2019 - 2021   📍 Colombo

- Project: Insigning App
  Summary: Developed mobile applications using React Native, enhanced UI/UX design, integrated Firebase services, and developed Node.js backend.
  Key Skills: React.js, React Native,Redux, JavaScript, UI/UX Enhancement, Firebase Integration, Node.js Backend, Git, GitHub

EDUCATION

BSc (Hons) Software Engineering Second Class (Upper Division)

Cardiff Metropolitan University

📅 2018 - 2011   📍 Cardiff,UK

SKILLS

Programming Languages

JavaScript, TypeScript, Python

Front-end frameworks and markup language

React.js,Redux,Next.js HTML, CSS

Back-end frameworks

Node.js, Django , Express,NestJS

Database technologies

PostgreSQL, MySQL, MongoDB

Mobile app development

React Native

Tools

Git, GitHub, VS Code, AWS

Operating Systems

Unix   Solaris   Linux   Windows
